Bordeaux FUZE Æ™

The Only GBL-free Eco Solvent Ink

Following extensive research, Bordeaux is proud to introduce its new generation eco solvent ink, **FUZE™ Æ**, the market's only **Advanced Environmental GBL (Gamma-hydroxybutyrate) free eco solvent ink.**

FUZE™ Æ is an enhanced eco solvent formula, with all the advantages of previous FUZE™ Eco versions but without the disadvantage of eco-solvent critical component, GBL.

Bordeaux pushed the limits to supply the graphics industry with an alternative, cost-effective GBL-free ink.

The replacement of GBL with a patent protected alternative is the result of years of research from the industry's top ink specialist.
